2. Installation, enter the room/leave the room

2.1. How to login to the meeting room

There are two ways to login to the conference room of MeetingPlaza.

- **Log in of conference reservation**
  System will generate the conference invitation emails that include URL to the participants automatically, before the meeting starts. Participants click the URL in the conference invitation mails to enter the meeting. Registered user can also log into the conference from conference that has been scheduled from the portal page.

- **Log in of Permanent meeting room**
  Participants will receive an invitation email with login URL for Adhoc room. Participants can start a conference easily at any time without reservation.
  Registered users can also log into the conference from reservation list on the portal page.
  In addition, a participant may log into a conference room directly from emails received from the administrator that has entrance URL of Adhoc room enclosed.

Message From Conference Manager:

You can enter the meeting room of the Business Unit Conference and Web Conference Promotion Committee.
2.2. Installation

Download from App Store and install.
App Store can be displayed from the URL mentioning in the conference invitation email.

1. When you click the URL in the conference invitation e-mail, the following screen will be displayed. (For details, please refer to 2.3.1, 2.3.2)

2. If you select "Install from App Store", the download screen will be displayed. Please do the installation following the procedures.
The following screen will be displayed while the user select <Login the conference room> without installing application in advance.

Please install the application as instructed.

2.3. Enter the conference room / Exit

A user accesses the meeting room from email (conference reservation type, Adhoc room type). Below, is the beginning screen while the application starts.
2.3.1. Activate from conference reservation email

1. Tap <Mail> from home screen.

2. Tap the invitation mail to open. Tap the URL contained in the invitation mail to enter the conference room.

---

<td>All meeting participants’ images are displayed. When a user talks, a</td>
</tr>
</tbody>
</table>
4 Chat  
Tap this will open a chat window. This chat function allows a user to send text message to all participants during the conference. 
Its screen varies on iPad or iPhone.

5 Mute (Speaker)  
Tap this to mute Speakers.

6 Mute (Microphone)  
Tap this to mute Microphone. 
(Valid only when the speaking mode is on, or audio switch is turned on.)

7 Video  
Tap this to pause a camera or resume stream video feed from a pause, take a picture, or choose from photo library.

8 Operation of shared documents  
Change layout of shared documents, view multiple shared documents, or close a document.

9 Various sharings  
User can start to share files, photos or web sites.

10 Enable / Disable a toolbar  
Enable /Disable Settings Bar at the bottom of a page.

11 Menu  
To open menus of Network, Video, Voice, Participants’ Information and Others.

Icons 4 to 10 are collectively called the “toolbar” for this application.

By tapping your own thumbnail, a group of functions will be listed at upper right corner.

<table>
<thead>
<tr>
<th>Icon</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>①</td>
<td>Double size</td>
</tr>
<tr>
<td>②</td>
<td>Minimize</td>
</tr>
<tr>
<td>③</td>
<td>Hide this user</td>
</tr>
<tr>
<td>④</td>
<td>Raise hand / Put down hand</td>
</tr>
<tr>
<td>⑤</td>
<td>Information</td>
</tr>
</tbody>
</table>
3.2. Chat

Tap <Chat> in the toolbar.
User may choose to send chat message to all participants or a particular participant.

When a text message is received, icon color is changed and a bubble text is displayed.
3.3. Volume control

Adjust the speaker volume by volume keys on the phone. After pressing <Menu>, you can adjust the volume from both speaker boost and microphone boost.

3.4. Video

Tap <Video> in the toolbar to change video settings.
### 3.4.1. Pause / Video ON

It allows a user to switch back and forth from pausing a camera or resuming stream video feed from a pause. Tap `<Video Pause ON>`, video is turned off and your camera is paused. Only a static image is displayed.

<table>
<thead>
<tr>
<th>Pause (show static image)</th>
<th>Video ON (show stream video)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause</td>
<td>Video ON</td>
</tr>
<tr>
<td>Switch In Camera</td>
<td>Switch In Camera</td>
</tr>
<tr>
<td>Still Image</td>
<td>Still Image</td>
</tr>
</tbody>
</table>

### 3.4.2. Switch Cameras

To switch cameras between in and out cameras.

<table>
<thead>
<tr>
<th>Switch to in camera</th>
<th>Switch to out camera</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pause</td>
<td>Pause</td>
</tr>
<tr>
<td>Switch In Camera</td>
<td>Switch Out Camera</td>
</tr>
<tr>
<td>Still Image</td>
<td>Still Image</td>
</tr>
</tbody>
</table>

### 3.4.3. Still Image

Allow user to choose an image from `<Take Photo>` or `<Photo Library>`.

- **Take Photo**
  Start camera and take a photo to use.

- **Photo Library**
  Allow user to choose image from photo library.
From iOS6, user needs to go to <Settings> -&gt; <Privacy> -&gt; <Photos>, turn ON MeetingPlaza Mobile before use.
3.5. Various Sharings

Below, is a list of available shared features for iPad/iPhone.

<table>
<thead>
<tr>
<th>Sharing</th>
<th>Shared from this Application</th>
<th>Sharing received from other devices</th>
</tr>
</thead>
<tbody>
<tr>
<td>Virtual file sharing</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>File sharing</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>Web sharing</td>
<td>☐</td>
<td>☐</td>
</tr>
<tr>
<td>Application sharing (*)</td>
<td>×</td>
<td>☐</td>
</tr>
</tbody>
</table>

(*) User is not allowed to start sharing feature from the iPad/iPhone device, but may view app shared by PC participants.

3.5.1. Virtual File Sharing

Virtual file sharing (VPI sharing) is the feature to allow all users to share on the memory without generating files on each user's end. Please convert a file to a Virtual Printer Image (VPI) file under Windows PC. VPI is a unique way of sharing files on MeetingPlaza.

To share a VPI on iPad/iPhone, please upload the file prior to the sharing.
* Only authorized special user may share a file that has been uploaded in advance.
<table>
<thead>
<tr>
<th>Button in the window</th>
<th>What they do</th>
</tr>
</thead>
<tbody>
<tr>
<td>[Change Layout]</td>
<td>Change to show document only</td>
</tr>
<tr>
<td></td>
<td>* It displays while both document and video are turned on.</td>
</tr>
<tr>
<td>[Change Layout]</td>
<td>Change to show document and video</td>
</tr>
<tr>
<td></td>
<td>* It displays when document only is turned on.</td>
</tr>
<tr>
<td>[Rotate]</td>
<td>Rotate 90 degrees clockwise</td>
</tr>
<tr>
<td>[Go Back]</td>
<td>Show previous page</td>
</tr>
<tr>
<td>[Forward]</td>
<td>Show Next page</td>
</tr>
<tr>
<td>[Draw]</td>
<td>Switch to drawing</td>
</tr>
<tr>
<td>1/5</td>
<td>Show the current page</td>
</tr>
<tr>
<td>[Page number]</td>
<td>Click to display the page list, Specify the page number and switch to that page.</td>
</tr>
</tbody>
</table>

To share drawing under Windows OS, please use the feature of drawing (Palette icon)

- During sharing mode, layout changes, page changes and drawing are in sync. (Status bar: gray)
- During private mode, user is free to make changes while its screen is not synchronized with other participants’. (Status bar: Green)
3.5.2. File Sharing

Shared files include Microsoft Office files as Word, PowerPoint, PDF file, txt file and image file.

There are two ways to start sharing at iPad, iPhone.

- Transfer files from device to device by using iTunes
- Meeting organizer logs into meeting administration system to upload a file before meeting starts (This is only allowed for conference reservation type.)

Tap File Sharing.

< Choose file for Sharing > is displayed.
Choose a file, tap < OK >.

A shared file page is opened.

File sharing is a feature to distribute files to participants.
The feature of switching between pages is not synced with the rest of meeting participants.
3.5.3. Photo Sharing

This application allows a user to import (and draw or add text) pictures taken at iPad or iPhone as a static image.

Tap Photo Sharing.

User may change the picture size or pinch zoom at Preview.
After taking pictures, tap `<Use Photo>` in the bottom right hand corner.

<table>
<thead>
<tr>
<th>Draw or add text</th>
<th>In the preview screen, as red highlighted shown below, user may draw or add text to the picture.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><img src="image" alt="Draw or add text" /></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Pinch in/Pinch out</th>
<th>A user may pinch with two fingers (multi-touch) to zoom out (pinch out) or zoom in (pinch in) and crop or scale the picture.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><img src="image" alt="Pinch in/Pinch out" /></td>
</tr>
</tbody>
</table>
3.5.4. Web Sharing

Start Web Page Sharing.

Tap Web Sharing.
Enter URL.

**Web Sharing**

Input URL to open

[Cancel]  [OK]

A shared web page is opened.

![Meeting Plaza interface](image)

Web sharing is shared with all meeting participants from page to page.
Allow user to draw on a shared page.

### 3.5.5. Application sharing

If one participant implements application sharing from a PC, the shared screen will be displayed on the display part of the screen of other participants.

![Application sharing example](image)

The user who is participating in the conference by MeetingPlaza Mobile can see Application sharing of PC participants, but he cannot start Application sharing from MeetingPlaza Mobile.
Below are the operations that you can do during application sharing.

<table>
<thead>
<tr>
<th>Operation</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pinch in/Pinch out</td>
<td>By enlarging (pinch out), or reducing (pinch in) by multi touch (2 fingers), you can scale the application sharing screen.</td>
</tr>
<tr>
<td>Drag operation</td>
<td>By touching the screen and dragging it, you can change the display position.</td>
</tr>
</tbody>
</table>

### 3.5.6. Operation of shared documents

Embedded in all shared features, toolbar document operation is enabled.
By tapping it, user can change layout of a shared document, view shared documents, or close a shared document.

3.6. Raise hand / Put down hand

Tap your own thumbnail and click the Raise Hand icon, user will see a Raise Hand icon show at the upper left corner of the video.

To put down your hands, tap your thumbnail again and click on Raise Hand icon.

Raise Hand icon is only shown on your thumbnail, tap other users' thumbnail, the icon won't be shown.

At MeetingPlaza, even administrator cannot put down users' hands that are "raised up" in one click.
3.7. Menu

Tap the Configuration icon in the upper left hand corner to display the Menu.

For details, please refer to Section 4 A summary of Menu.

Displays vary under iPad or iPhone.
3.8. Application running in the background

During the conference, click Home button will bring the user back to the home screen with MeetingPlaza Mobile running in the background. While MeetingPlaza Mobile running in the background, the status bar on top displays in red. In this case, the conference continues as audio-only while the video is disabled.

To return to MP Mobile screen, tap <MeetingPlaza> icon or tap the status bar to close the application.
4. A summary of Menu

A list of settings at Menu.

4.1. Network

It contains operation manual of network related items.
4.1.1. Network Speed

By tapping Network Speed, user can open a page to see network speed details.

- **Max Sending / Max Receiving**
  Allow user to enter network speed manually.

- **Measurement Settings**
  Turn the icon of <On Star-up> to <ON> to test connection speed automatically. Network status is displayed at the bottom of the screen in green color.
**Measurement**
Tap it to test network speed during the connection.

To start measurement, please login first.

### 4.1.2. Connection Settings

Display connection types.

<table>
<thead>
<tr>
<th>Connection Settings</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follow Wi-Fi settings</td>
<td>The way to allow user to connect based on his Wi-Fi settings on Proxy.</td>
</tr>
<tr>
<td>Direct connection</td>
<td>The way to connect via UDP.</td>
</tr>
<tr>
<td>TCP tunneling</td>
<td>The way to connect through TCP.</td>
</tr>
<tr>
<td>Via HTTP proxy</td>
<td>The way to connect through a proxy server by TCP protocol.</td>
</tr>
</tbody>
</table>

A user may choose connection types from <Follow setting for Wi-Fi>, <Direct connection>, <TCP tunneling> or <via HTTP proxy>.

User can't change his way to connect during a meeting.
To change, user needs to do so when the MeetingPlaza Mobile is opened without ongoing meetings.
4.1.3. Global Access Point Settings

Users attend a web conference via the nearest available server, regardless where the web conference is held. Users can enjoy high-quality video, audio and data sharing on our consistent and reliable network. To specify the Global Access Point, please click [connection settings] under [Preference], and then click [Global Access Point] to make changes on the Global proxy page.

* Depends on your contract type, [Global Access Point] may not be disabled.
* The limited network connection between your device and the nearest server may deteriorate the quality of the service.

The type of connecting Internet from <Follow setting for Wi-Fi> doesn't support proxy authentication (It doesn't reflect authentication information entered by user).
4.2. Video

A list of video settings.

4.2.1. Video Quality

To set video size and frame rate for sending and receiving. If you set it high, both size, frame rate will be high together. If there is delay in the video or if sound quality is not stable, please set it low.
- **Change video quality**
  By turning button left or right to change video quality.

- **Noise Filter**
  Check <ON> to apply video noise filter.

  It will contribute to reduce video data, but it requires CPU resource.

### 4.3. Audio

A list of audio settings.
4.3.1. Speaker Boost

To adjust the volume of speaker.
Adjusting the volume of the phone helps to change the volume when it is too big or too small.

4.3.2. Mic Boost

To adjust the volume of microphone.
4.3.3. Echo Canceller

To prevent echo that other party's voice played back from your speaker, would return to the other party by recorded by your microphone.

4.3.4. Noise Canceller

Reduce noise of microphone and speaker.
4.3.5. Talk Mode

Turn off microphone mute to send your voice.

<table>
<thead>
<tr>
<th>Utterance method</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Push-to-Talk (Turn On the mic while pressing the button.)</td>
<td>Choose this option to enable mic button. Press mic button while speaking. Press button <img src="right" alt="button" /> to drag to move.</td>
</tr>
<tr>
<td>Toggle to Talk (Press button to turn on/off Mic)</td>
<td>Press Mic button to start to talk, press button again to end. <img src="right" alt="Mic OFF" /> <img src="left" alt="Mic ON" /></td>
</tr>
<tr>
<td>Always On</td>
<td>Turn to speaking mode. Turn mic to [Mute] to pause the audio. <img src="right" alt="Mic Mute" /></td>
</tr>
<tr>
<td>Audio switch (Only delivers audio when in speaking mode)</td>
<td>Mic is activated when audio is recognized and it turns to the speaking mode. <img src="right" alt="Audio switch" /></td>
</tr>
</tbody>
</table>
4.3.6. Bluetooth

Please select this one when you use headset of Bluetooth TM.

We do not guarantee that the operation of the combination of all Bluetooth TM headset and terminal works properly.

4.3.7. Audio Test

Allow user to test sound and loopback.
**Play Test Sound**

Play test sound. Please adjust the volume if necessary.

*<speaker boost> is not work for test sound.*

**Loopback Test**

If you want to start audio communication testing, please turn on. Talk into the microphone and hear your voice from the speaker.

*While doing loopback test, you can't talk with other user. When you want to finish this test, please turn off.*

### 4.4. Portal Page

#### 4.4.1. Favorite

User accesses the user login screen from his web browser on a mobile device. Clicking "Login with MeetingPlaza app" will add the link to his Favorite.

When it is saved as a Favorite, you can login and enter the meeting directly by using mobile app from the next time.

* User is not allowed to edit Favorite when he is in a meeting room. To make changes or delete it, please logout first.

* Meanwhile, user is only allowed to add "registered user portal page" to the Favorite.
4.5. User Information

Display meeting users' information.

In addition to user names and meeting ID, allow user to change users' images.
<p>| | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Original size</td>
<td>Display image in original size.</td>
<td></td>
</tr>
<tr>

- Mic control: Mic is on automatically while speaking.
- Global AP: Japan, Conference Server: Japan
4.6. About

In addition, user can view application information and send system log to our Support Window at troubleshooting.
5. Uninstall the program

1. At iPad or iPhone home screen, hold your finger on the application icon until the icon begins to shake or wiggle with a [x] in the upper left hand corner.

2. Tap the [x]. When the MPMobile deletion window is prompted, tap <Delete> to remove the application.
6. Trouble shooting

It is possible to contact the support window by E-mail.

Please use <Contact > to inquire on the Web page.

It is also possible to contact the support window by E-mail.

- E-mail: support@meetingplaza.com
